PROFESSIONAL EXPERIENCE

Fils project,
Full stack developer 
[2023 - present](#) | (Remote), Spain

- Fils connects people through microblogging and social networking. It accommodates up to **10,000 active users** and **100 active organizations**.
- It is implemented with **Next.js** for both frontend and backend. It utilizes **MongoDB with Mongoose** for scalable data management, **Zod** for data integrity, **Clerk** for streamlined authentication, and **Shadcn/ui, Tailwind, and CSS** to enhance the interface.
- Coded with **TypeScript** and tested with **Jest**, it ensures project quality and reliability.
- **User experience** remains a priority throughout the project.

Aulart Masterclass SL, Content Creation, Social Media & Support 
[2020 - 2022](#) | (Remote), Spain

- Educational content creation of technical music production topics (**Design, video** editing, and **copy-writing** of social media assets and blog articles).
- Planning, scheduling, and posting **organization** on social media platforms and blogs.
- **Management** of external content creators.
- Customer service and advice on Aulart products, and technical support communication.
- Regular reports on the level of satisfaction of our users to the rest of the team.
