PROFILE

I am a highly **enthusiastic** certified junior full stack developer, eagerly seeking my first professional opportunity. My diverse background combines teaching, music technology, and customer service, allowing me to bring a **unique perspective to programming**.
As a **self-taught** individual, I am adept at working **independently**, yet I also possess excellent communication and **collaboration** skills when it comes to being a productive team member. Additionally, I have valuable experience working remotely, and following **agile methodologies**, which further enhances my **adaptability** and **efficiency**.

CERTIFICATES

- Build JavaScript applications using TypeScript (by Microsoft) √
- Meta Certified Community Manager √

EDUCATION

Full Stack Developer Bootcamp, 4GeeksAcademy √
2023

- I have a strong foundation in **HTML5**, **CSS3**, and **JavaScript** for web development. I am proficient in **Git** for version control and working with **JSON** data. I have experience building dynamic and responsive user interfaces using **React**, **Bootstrap**, and **Tailwind**.

- Additionally, I am skilled in **TypeScript** and **Next.js** for enhanced code scalability and server-side rendering. On the backend, I have expertise in **Python**, **Flask**, **MySQL**, and **MongoDB** for server-side development and database management. I am experienced in integrating **APIs** and implementing secure authorization/authentication.

- Overall, my diverse skill set allows me to create **robust** and **scalable** web applications.

Master's Degree in Music & Sound for Entertainment Experiences, University of Barcelona √
2019 – 2020

English Philology, Autonomous University of Barcelona √
2006 – 2011
Erasmus at the University of Manchester (UK, 2010 - 2011)
